

FOR CATS AND DOGS

As Rotifer we have been in pet industry since 2008. And we believe in the luck and happiness that our big-hearted little friends, bring into our lives. Since 2021, we started to produce products for cats and dogs. We are now under construction for expanding our factory and will double both production and storage area in 6 months. And this new investment will also allow us to invest more on cats and dogs.

Today, we are producing cardboard cat scratching for cats, compact houses for cats and small dogs from MDF, water and food tanks that are also made of MDF and cardboard toys. This new production line offers brand new developments and novelties to us which motivates our team for future. With each updated “Rotipet Catalog” you will introduce new products for our little friends. So, do not forget to check out the catalog from www.rotipet.com regularly !
