# Our History

## 2007

Rotifer Aquaculture was founded by Prof. Dr. Gökay Atilla Albaz and his son, mechanical engineer Salih Albaz. The main motive was to overcome the monopoly of the artemia importer in Turkey to reach a reasonable pricing strategy. By doing so the sea bream and sea bass hatcheries in Turkey might reduce their costs and had the chance of competing in an international arena to streamline their export activities. This goal was achieved in a very short time and enabled domestic sea bream and sea bass producers to meet affordable brine shrimp by achieving a 50% decrease in prices.

## 2008

Started to import "fish food" for aquariums.

## 2011

Moved to a new location with of 800 sqm enclosed area in an industrial zone. Received the production license with the number YK-TR-350002 and started to pack fish food. At the same year, ROTIFISH became the first registered brand of the company, and started to be used for fish food.

## 2015

ROTIPET was created as the second registered brand of Rotifer for pet products. Bird toys with the registered slogan of "For our big hearted little friends !" started to be manufactured.

## 2019

With the investment on new machines, hamster toys took their place in the product line of the company.

## 2021

High quality cardboard cat scratchers started to be manufactured

## 2022

Company went through a big construction at the end of which the available space for warehousing and manufacturing expanded to 2,700 m<sup>2</sup>.

## 2024

Proud to announce that our big-hearted little friends, are having fun with high quality, natural and ergonomic models of Rotipet in more than 14 countries all around the world.

## **Ready,steady,go !**

When we entered in the aquaculture industry with my father, it was clear, that it will not be limited to only one sector. In the second year of our foundation, we started packaging food for aquarium fishes. Then we found ourselves manufacturing toys, mineral and calcium blocks for birds.

Afterwards we started producing hamster toys. We dsicovered that "pet world" is truly magical. And it is great to be a part of this world. When we discovered that our machines are able to cut cardboard, we found ourselves in the cat scratchers business. It is very enjoyable to serve pet owners and our little friends. It seems they also love our products. Our journey which started with only two, continuing with more than 35 people in a 2700 m2 facility, 2 warehouses and a "big hearted little friend named "Yoda.

I am not so sure about our future steps in regard of new machines or maybe a new facility, but I am 100% sure that the next catalogue will be full of new models, happiness and most probably a new product line!

A handwritten signature in blue ink, appearing to be 'Julien', written in a cursive style.

Chewing is a natural behaviour for hamsters, and providing safe materials for them to chew on, not only keeps them entertained but also helps maintain their dental health. Softwood chew toys are excellent options as they allow hamsters to satisfy their chewing instincts while also helping to wear down their teeth.

Rotipet Hamster Toys, prioritize meeting your hamsters' chewing needs. Crafted from high-quality plywood or MDF, our toys are designed to provide endless entertainment for your tiny friends.

#### **What We Can Do for Hamsters:**

Our collection includes a variety of toys tailored to fulfil your hamsters' need to chew and explore. From chew toys to climbing structures, and tunnels, we offer everything to keep your hamster mentally stimulated and physically active.

#### **Materials We Are Using:**

At Rotipet, we exclusively use all-natural plywood or colour MDF in crafting our toys. Our toys are built to last and provide a safe environment for your pets.

#### **Colors:**

Our toys are available in a range of natural wood tones to complement any cage or play area. Additionally, we offer non-toxic paint options for customization, allowing you to personalize your hamster's toys to match their unique personality.

#### **Quality of Engraved Figures:**

Each toy is meticulously crafted with precision-engraved figures to enhance its visual appeal. Our commitment to quality ensures that every detail is carefully executed, providing a visually stimulating experience for your hamster.

*In addition to our standard designs, we offer customization options to meet your specific preferences. Whether you need a different size or have a new design in mind, our team is here to bring your vision to life.*

Thank you for considering Rotipet Hamster Toys to enrich your hamster's environment. We look forward to providing your furry friend with hours of enjoyment and stimulation.
